

How Groundwork can help...

Whether your company is looking to meet its Corporate Social Responsibility objectives through a local community project, or wants a team building day with a difference for your employees, Groundwork Hertfordshire can help.

Project sponsorship and donations

By sponsoring a Groundwork project companies can have a closer relationship with Groundwork and enjoy some of the publicity benefits that this can bring. Benefits include:

- Improved profile in the local community
- Aligning your brand with a positive, well respected environmental charity
- Local press coverage
- Exposure to new customers
- Good examples to illustrate your Corporate Social Responsibility policy

Companies might also consider donating materials to a Groundwork project, such as plants or garden equipment, in exchange for promotion of your brand and logo.

Corporate team building days

Planning a corporate team-building day and want to make a difference to your community? Groundwork Hertfordshire run original, action-packed days that transform the local environment. Groundwork staff will tailor the day to suit your needs, planning the activities, supervising your group, handling all health and safety requirements and providing equipment. Examples of recent team building days include:

Gap

Gap had a fun team building day working on an allotment site in Oxhey that is used by a group of people with physical and learning disabilities.

Thames Water and Cappagh

Thames Water and Cappagh joined together to create some planting beds at a Cheshunt primary school, ready for the children to start growing their own vegetables and learn about healthy eating.

Contract Groundwork to improve your site

If you have an outdoor site that needs a new garden, outdoor seating for your employees, or a piece of environmental art, consider contracting Groundwork to take this work on. We can consult with your workforce to find out what they'd like, design and implement the work. We could also consider maintenance contracts for sites. Our team of qualified gardeners, builders and landscape designers will provide a professional service, with the added benefit that your fees will help to fund our other projects in disadvantaged communities.

Groundwork provides fun, rewarding team building days

Barclays sponsored our Motiv8 projects for disadvantaged young people

Three Valleys Water sponsored and volunteered on a community woodland project in Hatfield

Groundwork are happy to help put your Corporate Social Responsibility policy into action
